RE: words taken directly from a speech given by Mr. Trump

"Our movement is about replacing a failed and corrupt political establishment...with a new government controlled by you, the American people. The Washington establishment, the financial and media corporations that fund it, exist for only one reason, to protect and enrich itself."

This is not simply another four year election / this is a crossroads in the history of our civilization that will determine whether or not we the people will regain control over our government.

This is a struggle for the survival of our nation.

I take all of these slings and arrows gladly for you...I take them for our movement so we can have our country back.

The only thing that can stop this corrupt machine is you. The only force...is us.

I'm doing it because this country has given me so much...it is my turn to give back to this country that I love.

I'm doing this for the people and the country... We will make America great again.

You don't have borders, you don't have a country.

We are going to make history together. "
